2. Water pollution- _____

READING /14 POINTS/

1. Read the text and Choose the True or False: – /10 points/

Chameleons are very sensitive animals. They are usually green and brown, but they can change their colors. When the chameleons are angry, they become red or orange. If they are cold, they become darker. When they are sick, they become pale. Why do they change their colors? They have special cells that have colors. A message from the brain tells them to change the colors or mix the colors.

- | | | |
|--|---------|----------|
| 1. Chameleons are usually pale | A. True | B. False |
| 2. When they are angry, they are red | A. True | B. False |
